

During recent months/years several A grade Typhoons have reaped havoc and destruction within communities across the Philippines. As many of those communities are Apex communities, our colleagues in the Philippines have been inundated with requests for assistance.

NOW IT'S OUR TURN TO HELP

Let the Apex community spirit Shine within the Asia/Pacific!

There's never been a better time to dig deep and give whilst exercising an aggressive and an intelligent citizenship. Let's promote international understanding and friendship during a time when it is most needed.

Small change can make a BIG difference!!
